

INNOVATING HAPPINESS

The Official Gateway 2030 Newsletter - June 2021

NEW MONTH, NEW TRAFFIC SIGNS & PLATEAUS!

On Friday, June 18th, DOW concluded the construction of four traffic plateaus and placement of the necessary traffic signs on the interior main roads to the Airport. These roads will be used by the Contractors to commute to and from the Construction Site and as a precautionary measure to reduce the risks of accidents. The works took place during night hours in close coordination with PMO, Airport Operations and the Health, Safety & Sustainability Unit. Thank you to all who contributed to the successful completion of the construction of the traffic plateaus!

WELCOME TO THE PMO TEAM!

One May 17th, Henk de Wit joined the PMO team as Civil Superintendent for the GW2030 Phase 1A.

Henk is a seasoned professional that has realized a huge amount of construction projects in Aruba since 1981.

Henk is very excited in joining the team and to contribute to the successful realization of the PH1A project.

HENK DE WIT

GERARD TURK

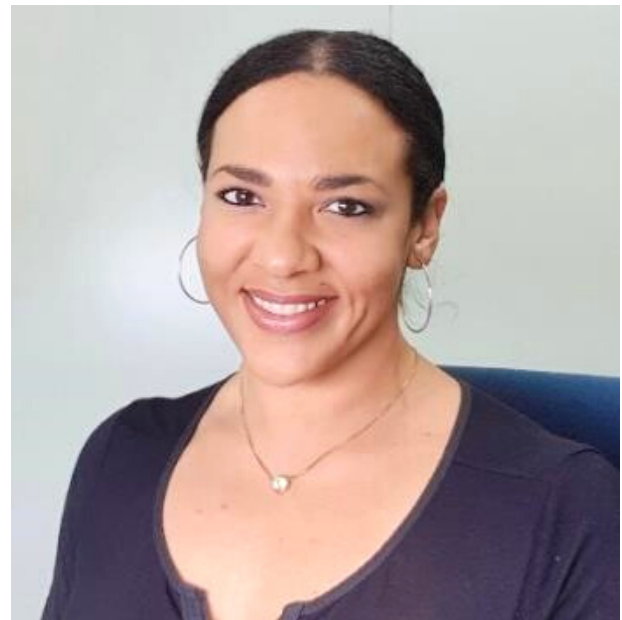

On June 3rd, Gerard Turk joined the PMO as Resident Engineer for the GW2030 Phase 1A Terminal Expansion works. Gerard has worked in seven continents around the world.

Gerard is eager to start and contribute his experience to the benefit of the Phase 1A project, AAA and the Aruban community in general.

Gerard will head the Engineering team and together with Toy Balentin, who heads the Employer's team, will run the Phase 1A Terminal Expansion Works.

On June 15, 2021, May-Ling Correa joined the PMO team as the document controller for the GW2030 Phase 1A project.

May-Ling is an accomplished document controller who also worked on the Enabling works project. Her broad experience with AAA processes and procedures as well as SharePoint, Procore and other construction software enables her to be of great value.

MAY-LING CORREA

PROPERTY INSURANCE INSPECTION WEEK

During the week of June 14 till June 18, 2021 Mr. Gerrit van Hattem, Mr. Peter Bakker Mr. Bas Mes visited AAA with the aim to inspect the AAA facilities to inspect the Fire prevention measures and obtain clarification about AAA and the GW Phase 1A project insurance requirements.

WHAT'S NEXT?

- During the next couple of weeks and early July the PMO team in conjunction with the ABC-PV will conduct a team building session, risk analysis sessions, stakeholder sessions, review/update the communication plan and review the readiness plan.
- Set-up of site lay-out will be completed, including outfencing of the complete construction area.
- Setting up of site offices for both contractors and the PMO team.
- Finalizing the Project Management Plan, Health Safety and Environment plan, Emergency plan and LEED plan.
- Verifying technical documentation in order for the contractor to start purchasing first materials.

This is all done to get ready for the official construction commencement date of June 28, 2021.
